Reasonable people seeking reasonable solutions.

Statement of No Confidence in Trump 2025 With Fifty Reasons

June 12, 2025

The Post-Capitalism Party is circulating a petition that declares a statement of no confidence in the 2025 Trump administration. It is available widely on [Change.org](https://change.org) and at the organization's official website.

The action lists fifty items that erode confidence, including threatening to invade allied nations, refuting checks and balances, installing an anti-vaccine director of health, playing with tariffs/markets on a whim, and being a compulsive liar. The full list of reasons is available on the official website.

The public is encouraged to participate and sign the *Statement of No Confidence in Trump 2025*.
